

arboriculture

▶ Are you looking for the solution to low spring temperatures?

▶ Would you like to produce bigger, more uniform in size and shape, more tasteful and better colored fruits?

Do you aim for longer lifespan in the fridge?

Apply

Amino16

Amino16 B Zn

Amino16 Si Zn

Amino16®

Apply, by foliar spraying, 500-700ml/1lt of water at the enlargement of the buds, at the drop of the flower petals, right after fruit setting and at 25%, 50% and 75% of fruit size.
