

cereals-rice

▶ Would you like
higher yields
and more efficient
weed control?

Apply

Amino16[®]

Amino16[®] Si Zn

by

EVYP

Amino16[®]

— at cereals —

Apply **Amino 16[®]**, 300ml/100lt of water, along with herbicide and achieve better ear setting, greater specific weight, higher yields and higher herbicide efficiency.

Amino16[®] Si Zn

— at rice —

Apply **Amino 16[®] with Silicon (Si) and Zinc (Zn)**, 300ml/1000m² twice, along with the herbicides at 4 leaves and 15 days later and achieve stress avoidance, greater specific weight, higher yield in the mill and better grain quality.
